of Lenawee County

2019 IMPACT REPORT

A Habitat Repair Story

In His Own Words, Mark R.

"The support I received from Habitat Lenawee made it possible for me to choose my own subcontractors and install siding and gutters on my house.

They assisted me with \$7,500.00 from a Federal Home Loan Bank grant, for the work I had done, and I was responsible for the balance of the work.

The Habitat staff was helpful in assisting me with the application process, including what I needed to provide for documentation. It was an easy process to navigate.

Their support helped make critical improvements to my home. Habitat also works with seniors on accessibility and safety modifications. What a great resource!

I am appreciative of the support I received from Habitat Lenawee County. Without their help, my repair needs would still exist with further damage from the gutters.

I plan to give back as a volunteer and show my support in any way I can.

With appreciation,
Mark R.

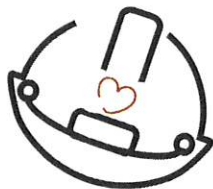

THANK YOU for your support!

Habitat for Humanity of Lenawee County has been building better futures for over 30 years, in partnership with our neighbors in the community

We have partnered with volunteers, donors and Habitat homeowners to build and renovate more than 169 homes locally since 1989, and repair hundreds more.

The lives of individuals have been transformed as a result of having a decent and affordable place to call home.

Check out this year's highlights of our work in action!
